

Safety Achievement Award:

The Safety Achievement Award is one of two safety programs CSA has sponsored since 1968. The award publicly recognizes the skills and dedication of the men and women who are responsible for safe vessel operations. The award, which is open to CSA members and non-members alike, is presented at the Annual Safety Awards Luncheon held in June each year.

Vessels are recognized for performing outstanding feats of safety during a calendar year which may include, but are not limited to: rescue; assistance to distressed vessels; transfer of ill or injured persons under difficult sea conditions; and demonstrations of safety and ship operations which have contributed to saving a life or a ship. They are actions in which the vessel and crew as a whole were involved rather than individual achievement.

All vessels, including container ships, tankers, Great Lakes carriers, offshore supply vessels, tugboats, etc., representing all segments of the industry (international and domestic deep-sea, coastwise and inland) are eligible to participate in this award program.

Entries will be judged by an impartial Safety Awards Committee comprised of qualified individuals from various segments of the industry. When making your nomination, please include sufficient detail to enable the committee to evaluate the submission.

Non-members participating in the Safety Awards program will pay a \$250 participation fee for 50 or less vessels or a \$500 participation fee for more than 50 vessels submitted.
